

WAUBAUSHENE MACHINE & WELDING

Single Hand Suction Nozzle

MAKES A PUMPOUT AS EASY AS GETTING GAS

The *Single Hand Suction Nozzle* makes a pumpout really easy. Just push the rubber cone** onto the opening and squeeze the handle. The Nozzle will close automatically when the handle is released so that no vacuum will be lost. The *Single Hand Suction Nozzle* can replace those nail breaking ball valves in any 1 ½" suction hose and works with all types and brands of marine pumpouts.

** also available with 1 ½" quick connect coupler instead of rubber cone

Single Hand Suction Nozzle:

- available with rubber cone or 1 1/2" quick connect coupler
- fits 1 1/4" to 2" openings (with rubber cone)
- 8" sight tube (with rubber cone) / 18" sight tube (with quick connect coupler)
- anodized aluminum body with plated and stainless steel parts
- approx. size of aluminum body: 6"x4"x2 1/2"
- suction hose is NOT included, please order separately

Single Hand Suction Nozzle with quick connect coupler
